## PROFILE

### RESULTS-ORIENTED ARTIFICIAL INTELLIGENCE AND SOFTWARE ENGINEERING STUDENT WITH STEM

#### FOUNDATION AND LEADERSHIP EXPERIENCE

**Programming and Development:** Java, Python, JavaScript, Git, Agile practices

**Software Testing:** Debugging, test case writing, QA principles, beta testing (Figma, v0 app)

**Professional Skills:** Customer service, sales negotiations, teamwork, bilingual (English & Russian)

- Centennial College student pursuing Artificial Intelligence and Software Engineering with strong STEM foundation.
- Experience in leadership through training, task delegation, and client relations in a project setting.
- Skilled in software quality assurance, debugging, test case writing
- Generated 100+ clients through canvassing, negotiations, and follow-ups.

#### SKILLS

- Programming and Development: Java, Python, C#, JavaScript, Git, Agile/Scrum practices
- Frameworks and Tools: Visual Studio, Eclipse, Oracle SQL Developer, Tailwind CSS, React, Vite, Figma, v0, n8n
- Software testing and QA: Test case design, postman for debugging, unit testing, QA principles, beta testing, error handling
- Data and Systems: Unix/Linux VM setup, shell scripting, file navigation through terminal, XML parsing, JSON transformation, LINQ

#### EDUCATION

##### Artificial Intelligence and Software Engineering - CO-OP Advanced Diploma

Sept 2024 – Present

Centennial College, Toronto, ON

- **GPA: 3.9**
- **Relevant Courses:**
  - **Unix/Linux Systems:** Virtual machine setup, shell scripting, system file navigation.
  - **Client-Side Web Development:** HTML, CSS, JavaScript, building feature-oriented websites.
  - **C# Programming:** OOP, inheritance, collections, debugging, GUI (WindowBuilder), LINQ.
  - **Software Requirements Engineering:** UML, SRS, Agile methodology, design models, project documentation.

#### PROJECTS

##### Tour Connect App

January 2025

- Designed and prototyped a cross-platform mobile/desktop travel assistant app
- Applied software engineering principles: UML diagrams, system requirement specifications, and CRC cards to structure app features and workflows.
- Simulated QA testing scenarios to ensure app reliability and robust error handling.

##### RSS Feed Aggregator

Jan - May 2025

- Built a centralized content reader with interactive feed cards and personalized categories.
- Built automated validation system to test feed functionality, language detection, and image content analysis.
- Implemented data parsing and analysis pipeline to process different international news sources.

**RELATED EXPERIENCE****Painting Crew Chief**

Student Works Painting

- Coordinated daily painting projects and delegated tasks.
- Ensured quality standards are met and acted as main client contact.
- Document progress to maintain efficiency, quality and client satisfaction.

April 2025 – August 2025

Richmond Hill, ON

**Sales Manager**

Shine &amp; Revive Exterior Services

- Generated 100+ clients through canvassing and closing deals.
- Negotiated pricing and scheduled services with property owners.
- Conducted follow-ups to secure repeat business and meet sales targets

May 2025 – August 2025

Greater Toronto Area

**OTHER EXPERIENCE****Crew Trainer**

McDonald's

- Trained new team members on food safety and customer service.
- Delivered strong customer service by addressing client concerns.

April 2025 – August 2025

Richmond Hill, ON
